TENNESSEE CLEAN WATER NETWORK

Why should the citizens pay for the polluters? SB3620 (Yager) / HB3482 (Ferguson)

This bill removes the money collected for fines, penalties, and damages when some pollutes from one fund and places it in the general fund. The Environmental Protection Fund was established so polluters have to pay for the enforcement against them – makes sense. When we pay speeding tickets the money goes to help fund the police, right? So when a polluter pays a fine the money should go directly to the program which protects us from further pollution!

Should the citizens of Tennessee have to pay for the prevention of this type of pollution? No, the polluters should!

Visit TCWN.org for more information and to take action for clean water!
